

In today's dynamic cultural environment, churches have to be more than faithful--they have to be agile. That means embracing processes of trial, failure, and adaptation as they form Christian community with new neighbors. And that means a whole new way of being church.

Taking one page from the Bible and another from Silicon Valley, priest and scholar Dwight Zscheile brings theological insights together with cutting-edge thinking on organizational innovation to help churches flourish in a time of profound uncertainty and spiritual opportunity. Picking up where his recent bestseller, *People of the Way* left off, Zscheile answers urgent and practical questions around how churches become agile and adaptive to meet cultural change.
